Capitol Limited 2004 Update *by John Drye*

Along with our friends at the N Scale Collector's (NSC) Society, we're putting the finishing touches on the initial great list of extra-fare events. These will include trips to a couple of local industries, local museums; especially the brand-new Air and Space Museum at Dulles. If you've traveled out to Dulles Airport recently, you've probably seen some of the aircraft to be displayed there.

We're starting to hear the buzz grow: N Scale Railroading Magazine has already labeled Chantilly as "the N place to be in 2004". Registration remains open on line www.ntrak2004.org. If you plan to stay at the Holiday Inn, don't delay. The hotel will fill in the next couple of months.
